

# Colin Henein's Camping List

I generally forget things unless I consult this list. It may not have absolutely everything I need to take, but if these things come then I'm generally in good shape. The equipment lists are the ones I really refer to, the ingredient and clothing lists are things I'd play with a bit. Of course, you may have other needs and wants, so combine this list with your own personal list of important items.

I personally tend to find things and then forget to put them in the bag. I now use a three column system when packing. I go through the list and figure out where stuff is (my basement, the store, my parents' place, etc) and put a letter in the **L** column in order to make sure I get the item when I go to that place. When I find the item I put a checkmark in the **F** column and stick it in a giant heap next to the bags. When the item goes into the bag I check off the **P** column. I find this system works to make sure I have what I want when I get to the campsite.

Happy Camping! -- Colin
